## EDUCATION

**College of Technology and Engineering, Udaipur**

Bachelor of Technology (B.Tech.) in Computer Science  
5th Semester - CGPA 7.62 out of 10

2012 – 2016 (Expected)

**Central Academy School, Sardarpura, Udaipur**

Schooling

Senior Secondary - CBSE AISSCE, **86.2%**.

2012

Secondary - CBSE AISSE, CGPA: **8.8/10**.

2010

## TECHNICAL EXPERIENCE

**Intern at HCL Technologies:**

May 2014 – Jul 2014

Worked on a Stock Market Simulator, fetching live prices of listed tickers using Yahoo! Finance, Google Finance and other services, trading on real stocks with Virtual Money. **PHP, Javascript, MySQL**

## PROJECTS

**Codeforces Tool:**

A web application which scrapes data from <http://codeforces.com> (An online judge for competitive programming) to look up for multiple user submissions on a particular question by contest id and problem id. **Python, Flask, Javascript** [cftool.rajatja.in]

**Compiler Sandbox:**

Creates a virtual environment / sandbox for fast and secure execution of programs and scripts and abstracts the compilation and running process from end user. **PHP, Shell, Javascript** [compiler.rajatja.in]

**Instagram Downloader:**

A python library to download images in bulk from Instagram by handle name. Uses official as well as an unofficial API. **Python**

**Tech Next Reader:**

Queries multiple Technology news sources and extract trending articles to intelligently summarize them for a quick skimming. Currently working on it. **Python, Flask, Javascript** [thetechnext.net]

Source Code of these and other projects available at <http://github.com/thisisrajat/>
